## PRESIDENT'S MINUTE

Sometimes I wonder what "They" are talking about when I hear about the motorcycle "Off season".

Through the efforts of Ric Case, Gary Brandt, and Greg Smith, our road captains, once again, devoted their personal time to meet, review our GRASS class and discuss refinements to our safety program for the coming season.

We almost seem busier and more active between November and

April than we do during the summer months. The lesson here is to keep watching our web site, reading ROAR, and attending meetings. You might find that our activities tempo continues to increase and our Club camaraderie remains high....

Members and guests filled the room at our annual Awards Banquet with close to 96% of our regularly active members attending. Not only did this traditional event provide a forum for recognizing those valuable members who make this Club run so well but, it provided an opportunity for our new

### Just this month we had...

A super time, and great turnout at our first Top Cats' Shootout where members had the chance to fire a variety of weapons as well as their own at a range facility reserved for, and limited to, the Top Cats.

members and spouses to get acquainted with many other Top Cats and resulted in a guest applying for membership.

## KAUTION KORNER

### A Short Trip to a Lot of Damage

By Richard Flynn

*Did you know that most motorcycle accidents involve a short trip?*

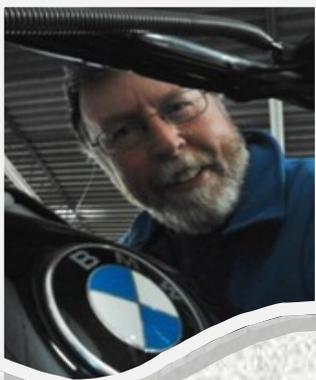

You could be going to go shopping or run errands and bang you find yourself in accident. A lot of our trips this time of year tend to short and we need to be especially careful.

*Why do more accidents happen close to home?*

The answer is simple, almost 72 per cent of respondents in an insurance survey admitted to paying less attention on local roads and 60 per cent said that they become lazy when nearing their home.

The most common crash within a mile of the home is crashing into parked cars. We tend to be on our comfort zone when we are on roads we know. When on long trips we tend to get sleep the night before and prepare for the trip. We are out of our comfort zone on long trips so we are constantly aware of what is going on around us. Some statistics say that only 89 per cent of accidents happen within 26 miles from the home. Keep in mind that the typical motorcycle accident allows you less than 2 seconds to complete all collision avoidance action. To keep yourself alert check your mirrors every five to eight seconds. Make sure you are constantly clearing the road ahead. On the residential streets, especially in winter look for cars because they will not be looking for you.

*Keep your mind on the road at all times.*

## What's On Your VP's Mind

*By Larry Scalzitti*

Welcome to my first regular column as your new Vice President! Shortly after I was elected, I met with Wayne to make sure I understood my duties as VP. After a terrific breakfast at Lake Zurich's Koffee Kup and a good conversation about the club, it became apparent to me that my new job would be two-fold, to become a By-Laws expert and also to keep my ear to the ground and my finger on the pulse of the membership. I'd like all of you to help me be your voice whenever I can; at a board meeting, at a meeting or ride you can't attend, or even in this column. If there's anything that you want to talk about, please let me know. Call me, email me, chat me up at a meeting or a ride – but just make sure you let me know what's on your mind. I will try to do the same and this column is one way for me to talk to all of you. Of course, as always, please let any board member know your concerns. We all want to make sure that Top Cats is responsive to the needs of our members.

Over the course of my term I'll use this column to talk to a number of topics. Some months will be about the by-laws, sometimes it will be motorcycle consumer topics and occasionally I may just talk about anything that I think is interesting and/or topical.

Please take a look at the activities calendar for the coming year. There are some excellent events and rides planned. You'll note that not every weekend is full and not every ride has a road captain. Volunteer to help complete the schedule and we will all benefit from each other's efforts. Also take a look at your personal calendar and reserve time for those weekends that you can spend riding with your club. I'm looking forward to a great year – Let's Ride!

### 2013 Indian Chief Vintage Final Edition

Indian Motorcycle has announced that the 2013 Indian Chief Vintage Final Edition is available in

very limited quantity. This marks the end of one era in motorcycling history and the beginning of a new era as this is the final version of the Kings Mountain era of Indian Motorcycle.

The 2013 Indian Chief Vintage FE has a paint scheme that emulates the iconic Indian Chief that was on display at the 1939 World's Fair in New York. The fact that there will be an extremely limited number of these bikes made available will instantly make them highly collectible. The new Indian Motorcycle will be made by Polaris Industries with a MSRP of \$37,599 and \$39,599 in Canada. For more info: [www.indianmotorcycle](http://www.indianmotorcycle).

### EPA TO DROP FOUR GALLON MINIMUM GAS PURCHASES

Ethanol-laden gasoline is known to cause engine damage, and many manufacturers warn that using the product will invalidate warranties, so when the EPA approved E15 (fuel blend containing 15% ethanol) it raised concerns amongst motorcyclists and others who use equipment driven by small gas-powered motors...none of which are approved for its use.

(Continued on page 4)

# Oil Spots

By Travelor

(Continued)

The EPA's response was to require a minimum four gallon purchase, the misguided rationale being that it would dilute any residual E15 remaining in a gas pump's lines. Again, the U.S. Environmental Protection Agency came under fire.

Apparently realizing that a viable solution to the problem needs to be conceived, the EPA is abandoning its four-gallon minimum on blender pumps that dispense both E10 and E15 from the same pump, and instead the government body says it will likely require gas stations to label shared pumps, as well as offer a dedicated E10 pump/hose for non-approved vehicles.

## What About the American Motorcyclist Association?

Since 1924, the AMA has protected the future of motorcycling and promoted the motorcycle lifestyle. AMA members come from all walks of life, and they navigate many different routes on their journey to the same destination: freedom on two wheels.

As the world's largest motorcycling rights organization, the AMA advocates for motorcyclists' interests in the halls of local, state and federal government, the committees of international governing organizations, and the court of public opinion.

Through member clubs, promoters and partners, the AMA sanctions more motorsports competition and motorcycle recreational events than any other organization in the world. AMA members receive money-saving discounts from dozens of well-known suppliers of motorcycle services, gear and apparel, bike rental, transport, hotel stays and more.

Through the AMA Motorcycle Hall of Fame, the AMA honors the heroes and the heritage of motorcycling for future generations. For more information, please visit [www.americanmotorcyclist.com](http://www.americanmotorcyclist.com).

## NHTSA Recall Subscriptions

You can now subscribe to this government vehicle recall notice at: [www.odi.nhtsa.dot.gov/subscriptions/index.cfm](http://www.odi.nhtsa.dot.gov/subscriptions/index.cfm). Subscribers can list up to five vehicles and monitor for recalls of ancillary safety issues such as tires.

## Watch Out For New Motorcycle Laws

Well we're into the new year and riders should be aware that many states will have new motorcycle laws starting to go into effect. You need to know what laws will affect you. Here are some examples of new laws that states will start enforcing:

Illinois has at least 3 new laws including one where *the handlebars will have to be below the height of the rider's head*. And *any motorcyclist caught riding a 'wheelie' while they are exceeding the speed limit can expect a hefty fine*. But this next one is a good one and should be adopted everywhere. *After a "reasonable" amount of time waiting at a red light, the motorcycle will be able to proceed if there are no other oncoming cars*. This law doesn't apply in cities of over 2 million people.

In California local governments are now *prohibited from conducting motorcycle-only checkpoints*.

And in Florida it is now *legal to flash headlights at oncoming traffic to warn about police*.

## California enacts an un-sound exhaust law

On Jan. 1, 2013, [SB435](#), California's Motorcycle Anti-Tampering Act went into effect. It gives police the authority to ticket motorcycles with non-compliant exhaust systems.

It applies only to 2013 motorcycle models and exhaust systems. Older bikes equipped with aftermarket systems purchased before Jan. 1, 2013, are not affected.

Although it would be virtually impossible to tell.

An older bike that has a non-compliant aftermarket exhaust installed or purchased after the 1/1/13 deadline would also be in violation of the law.

A rider must be initially cited for another infraction -- such as speeding, not signaling or an illegal turn -- before he or she can be cited for violation of [SB435](#). A first conviction generates a fine of between \$50 and \$100, which can be dismissed at the discretion of the court upon proof of correction. A second conviction raises the fine to not less than \$100 or more than \$250, but there's no provision for dismissal of the fine.

**Better alternative?** The [SAE J2825](#) roadside stationary test is a better solution, according to many in the industry.

(Continued on page 5)

## Oil Spots Continued...

It's simple, economical, and effective, and has been tested enough so that it won't falsely fail the EPA standard. SAE J2825 was developed by the MIC in collaboration with the SAE Motorcycle Technical Steering Committee, and backed by the AMA.

You conduct the SAE test by holding a sound meter 20 inches behind the exhaust outlet, at the same height and at 45 degrees from the motorcycle's line of travel. The test procedure includes an Idle Test and a Set RPM Test. The Idle Test is the easiest to administer and can be used to screen various mufflers. The Set RPM Test, however, is most effective for identifying excessively loud exhaust systems.

Along with the test are dBA recommendations by the SAE:

- 92 dBA at idle for all motorcycles
- 96 dBA for motorcycles with fewer than three cylinders or more than four cylinders at 2000 rpm
- 100 dBA for motorcycles with three or four cylinders at 5,000 rpm

While SB435 is now in place, the MIC along with the rest of the industry is working to get the State of California, the California Air Resources Board (CARB) and EPA to adopt J2825.

## 2013 Motorcycle Calendars

It's a new year so you need a new calendar to keep track of how many days it is to Daytona. That and you're probably in need of some new scenery to look at anyway. The National Motorcycle Museum has a several 2013 Motorcycle Calendars available. Inventory is limited so place your order soon. Getting 1 of these calendars will help you keep track of all your riding activities for 2013, plus giving support to the National Motorcycle Museum. Thanks from the staff at the National Motorcycle Museum. For more information and to place your order on-line: [www.nationalmcmuseum.org](http://www.nationalmcmuseum.org).

## Hollister motorcycle rally to return in 2013

The Hollister City Council Jan. 7 voted to resurrect the Fourth of July motorcycle rally for 2013. The iconic rally, which had been on-hold since 2009, is now scheduled to take place on July 5 and 6.

It's widely agreed that the "American Biker" outlaw image was born in Hollister during the Fourth of July weekend in 1947, when a rowdy group of bikers terrorized the town. The story was picked up by *Life Magazine*, and then sen-

sationalized in the movie, "The Wild One," starring Marlon Brando.

The city launched the Hollister Independence Day Rally to commemorate the 50th anniversary of "The Invasion of Hollister"; however, the city put the rally on hold in 2009 due to financial considerations.

The 2013 rally reportedly will include motorcycle-only parking, a vendor display, two entertainment areas, local beer gardenes, demo rides, and an official bike show for the World Championship of Bike Building, the company said.

## Scrambled Eggs & Gunsmoke

By Traveler

A first for the Club and an example of the type of exciting events we can expect for 2013 was our first ever Club shootout at On Target Range Facility on 12 Jan!!!!!!!

members without FOID cards teamed with those who did have them so all could enjoy the shooting experience.

In typical Top Cats' fashion, we don't do ANYTHING on an empty stomach so...we met that morning for a good ol' roadhouse style breakfast before heading to the range.

Thanx to Adam Brooks and the On Target weapons rental program, many Top Cats had the opportunity to fire an AK-47 (7.62 mm), CHICOM SKS (7.62 mm), and a military, M-4 style (5.56 mm) AR. And thanx to many of our members for sharing their hand guns and rifles with other members so all could enjoy the experience of firing a .22 cal pistol and a rifle with scope as well as a 9 mm and .45 cal semi – auto pistol.

The folks at On Target, in Crystal Lake, had blocked the entire rifle range for us for a two hour private shoot and a tour of their new facility. After a quick safety briefing and purchasing targets, ammo, hearing/eye protection, if needed, sixteen well – fed and well – armed hardy souls took their place on a firing range and proceeded to spend the next two hours happily imagining that they were neutralizing bears, lions, squirrels, and bad guys albeit on paper targets.

The day ended with some valuable knowledge....1.) the crude, yet devastating power of an AK-47, 2.) the accuracy of small – caliber weapons, 3.) the potential danger in handling firearms and, 4.) the camaraderie of Top Cats in any activity, from eating to shooting.....

FOID card holders were required on each lane and our

One word of caution learned from this event!!! NEVER get in a shooting contest with Judy Scalzitti, Noelle Rigby, or Mary Walters...
